

INTREPID CAPITAL MANAGEMENT FUNDS TRUST

Supplement dated November 14, 2018 to the
Prospectus dated January 31, 2018, as supplemented

INTREPID SELECT FUND
Investor Class Shares: ICMTX
Institutional Class Shares: (Not available for sale)

We are pleased to announce that on November 13, 2018, the Board of Trustees (the “Board”) of Intrepid Capital Management Funds Trust (the “Trust”) approved: (1) a plan of reorganization pursuant to which the Intrepid Select Fund (the “Select Fund”) will be reorganized into the Intrepid Disciplined Value Fund (the “Disciplined Value Fund”) (each, a “Fund,” and together, the “Funds”); and (2) the subsequent liquidation and dissolution of the Select Fund, effective on or about January 25, 2019. The reorganization, which is expected to be tax free to the shareholders of the Select Fund and is subject to customary closing conditions, will be effected by transferring of all of the assets and liabilities of the Select Fund to the Disciplined Value Fund in exchange for shares of the Disciplined Value Fund, with the shares being distributed pro rata by the Select Fund to its shareholders. The Select Fund will then be liquidated and dissolved. The Reorganization is expected to occur on or about January 25, 2019. In accordance with applicable regulatory requirements, shareholder approval is not required for the reorganization, and shareholders are not being asked to approve the reorganization.

The Select Fund’s portfolio managers will continue to manage the Select Fund in the ordinary course. The co-lead portfolio managers for the Select Fund are Mark F. Travis and Clay Kirkland, CFA. Mr. Kirkland serves as portfolio manager for the Disciplined Value Fund, and Mr. Travis is a member of the investment team for the Disciplined Value Fund. The Select Fund and the Disciplined Value Fund have the same investment objective of seeking long-term capital appreciation, the same investment policies with the exception of each Fund’s diversification status, and similar, but not identical, investment strategies.

Existing shareholders may redeem or exchange shares of the Select Fund in the ordinary course until the last business day before the closing of the reorganization, January 24, 2019. The Select Fund will be closed to new purchases as of the close of business on Thursday, January 17, 2019.

The Funds will file an information statement and prospectus as part of a Registration Statement on Form N-14 with the Securities and Exchange Commission in connection with the reorganization. The information statement and prospectus will be sent to shareholders of the Select Fund. **Shareholders are urged to read the information statement and prospectus because it will contain important information about the reorganization, including the Board’s reasons for approving the reorganization.** The information statement and prospectus may be obtained free of charge from the SEC’s website at www.sec.gov or by calling 1-866-996-3863.

Supplement dated September 19, 2018
to the Summary Prospectus and Statutory Prospectus, each dated January 31, 2018

Effective as of September 10, 2018, Jayme Wiggins no longer serves as the portfolio manager of the Intrepid Endurance Fund and the Intrepid Select Fund, or as a part of the investment team of the Intrepid Capital Fund. Mark Travis, President of Intrepid Capital Management, Inc., the Funds' investment adviser (the "Adviser"), will continue to serve as a portfolio manager of the Intrepid Capital Fund, and has assumed lead responsibility for the day-to-day management of the portfolio of the Intrepid Endurance Fund. Mr. Travis and Mr. Clay Kirkland, CFA, portfolio manager of the Adviser, have assumed co-lead responsibility for the day-to-day management of the portfolio of the Intrepid Select Fund. Effective immediately, disclosures in the Summary Prospectus and Prospectus are hereby amended as follows:

The sub-section entitled "Summary Section—Intrepid Capital Fund—Management—Portfolio Managers" is revised as follows:

Portfolio Managers: Mark Travis has served as the portfolio manager of the Fund since its inception in 2005, and is the President of the Adviser. Jason Lazarus, CFA®, has served as part of the investment team of the Fund since 2008.

The sub-section entitled "Summary Section—Intrepid Endurance Fund—Management—Portfolio Managers" is revised as follows:

Portfolio Manager: Mark Travis has served as the portfolio manager of the Fund since September 2018, and is the President of the Adviser. Mr. Travis also served as part of the investment team of the Fund from its inception in 2005 through 2017.

The sub-section entitled "Summary Section—Intrepid Select Fund—Management—Portfolio Managers" is revised as follows:

Portfolio Managers: Mark Travis has served as the co-lead portfolio manager of the Fund since September 2018, and is the President of the Adviser. Mr. Travis also served as part of the investment team of the Fund from its inception in 2015 through 2016. Clay Kirkland, CFA® has served as the co-lead portfolio manager of the Fund since 2018, and is a portfolio manager of the Adviser.

The sub-section entitled "Management of the Funds" is revised in part to remove all references to Mr. Wiggins, and to replace disclosure for Mr. Travis with the following:

Mark Travis

Intrepid Capital Fund
Intrepid Endurance Fund
Intrepid Disciplined Value Fund
Intrepid Select Fund

Mark Travis is the lead portfolio manager of the Intrepid Capital Fund and the Intrepid Endurance Fund, the co-lead portfolio manager of the Intrepid Select Fund, and is a member of the investment team of the Intrepid Disciplined Value Fund. Mr. Travis is a founder and has been the President of the Adviser since 1994. Prior to founding the firm, Mr. Travis was Vice President of the Consulting Group of Smith Barney and its predecessor firms for ten years. Mr. Travis holds a BA in Economics from the University of Georgia.

Clay Kirkland, CFA®

Intrepid Disciplined Value Fund
Intrepid Select Fund

Clay Kirkland is the lead portfolio manager of the Intrepid Disciplined Value Fund and the co-lead portfolio manager of the Intrepid Select Fund. Mr. Kirkland joined Intrepid Capital in 2012. He is a portfolio manager focusing primarily on mid-cap and large equity securities and previously spent time analyzing high yield fixed income investments and equity securities. A CFA Charterholder, Mr. Kirkland earned his MBA from Columbia Business School in 2011 and received his BS BA degree, cum laude, in Economics from Auburn University.

If you have any questions, please call the Intrepid Funds at 1-866-996-FUND (toll free).

The date of this Supplement is September 19, 2018.
Please retain this Supplement for future reference.

Before you invest, you may want to review the Intrepid Select Fund's (the "Fund") Prospectus, which contains more information about the Fund and its risks. The current statutory prospectus and statement of additional information dated January 31, 2018, are incorporated by reference into this Summary Prospectus. You can find the Fund's Prospectus and other information about the Fund online at <http://www.intrepidcapitalfunds.com/literature.html>. You can also get this information at no cost by calling 1-866-996-FUND or by sending an e-mail request to invest@intrepidcapitalfunds.com.

Investment Objective: The Intrepid Select Fund (the "Fund") seeks long-term capital appreciation.

Fees and Expenses of the Fund: This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

SHAREHOLDER FEES

(fees paid directly from your investment)

| | <u>Investor Class</u> | <u>Institutional Class</u> |
|--|-----------------------|----------------------------|
| Maximum Sales Charge (Load) Imposed on Purchases (as a percentage of offering price) | None | None |
| Maximum Deferred Sales Charge (Load) (as a percentage of offering price) | None | None |
| Maximum Sales Charge (Load) Imposed on Reinvested Dividends and Other Distributions (as a percentage of offering price) | None | None |
| Redemption Fee (as a percentage of amount redeemed on shares held for 30 days or less) | 2.00% | 2.00% |
| Exchange Fee | None | None |

ANNUAL FUND OPERATING EXPENSES

(expenses that you pay each year as a percentage of the value of your investment)

| | | |
|---|---------------|---------------|
| Management Fees | 1.00% | 1.00% |
| Distributions and/or Service (12b-1) Fees | 0.25% | None |
| Other Expenses ⁽¹⁾ | <u>0.71%</u> | <u>0.71%</u> |
| Acquired Fund Fees and Expenses ⁽²⁾ | <u>0.02%</u> | <u>0.02%</u> |
| Total Annual Fund Operating Expenses | 1.98% | 1.73% |
| Fee Waiver and/or Expense Reimbursement ⁽³⁾ | <u>-0.56%</u> | <u>-0.56%</u> |
| Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement ⁽³⁾ | <u>1.42%</u> | <u>1.17%</u> |

⁽¹⁾ "Other Expenses" are based on estimated expenses for the current fiscal year for the Institutional Class shares.

⁽²⁾ Total Annual Fund Operating Expenses in the table above do not correlate to the ratio of Expenses to Average Net Assets found within the "Financial Highlights" section of this prospectus, which does not include Acquired Fund Fees and Expenses.

⁽³⁾ Intrepid Capital Management, Inc. (the "Adviser") has contractually agreed to reduce its fees and/or reimburse the Fund to the extent necessary to ensure that Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement do not exceed 1.40% of the average daily net assets for the Investor Class shares of the Fund, and do not exceed 1.15% of the average daily net assets for the Institutional Class shares of the Fund. This expense limitation agreement will continue in effect until January 31, 2019. The Adviser may recoup any waived amount from the Fund pursuant to this agreement if such reimbursement does not cause the Fund to exceed existing expense limitations and the reimbursement is made within three years after the year in which the Adviser incurred the expense. The Fund may have Total Annual Fund Operating Expenses after Fee Waiver and/or Expense Reimbursement higher than these expense caps as a result of any sales, distribution and other fees incurred under a plan adopted pursuant to Rule 12b-1 under the Investment Company Act of 1940, as amended (the "Investment Company Act"), acquired fund fees and expenses or other expenses (such as taxes, interest, brokerage commissions and extraordinary items) that are excluded from the calculation.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same (taking into account the contractual expenses limitation for one year). Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

| | <u>1 Year</u> | <u>3 Years</u> | <u>5 Years</u> | <u>10 Years</u> |
|---------------------|---------------|----------------|----------------|-----------------|
| Investor Class | \$145 | \$567 | \$1,016 | \$2,261 |
| Institutional Class | \$119 | \$490 | \$ 886 | \$1,994 |

Portfolio Turnover: The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. During the most recent fiscal year, the Fund’s portfolio turnover rate was 29% of the average value of its portfolio.

Principal Investment Strategies: Under normal conditions, the Fund invests in equity securities of domestic and foreign companies which the Fund believes are undervalued. Foreign companies, or non-U.S. companies, are companies domiciled or headquartered outside of the U.S., or whose primary business activities or principal trading markets are located outside of the U.S. The Fund believes that an equity security is undervalued if the market value of the outstanding equity security is less than the intrinsic value of the company issuing the equity security. Equity securities in which the Fund may invest include common stocks, preferred stocks, convertible preferred stocks, warrants, options, exchange-traded funds (“ETFs”) and foreign securities, which include American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”). The Fund is non-diversified, which means that it may invest a significant portion of its assets in the securities of a single issuer or small number of issuers.

The Fund seeks to invest in equity securities whose future prospects are misunderstood or not fully recognized by the market. The Fund considers the intrinsic value of a company to be the present value of a company’s expected future stream of free cash flows discounted by an appropriate discount rate. After estimating the intrinsic value of a company, the Fund adjusts for debt, cash, and other potential capital (such as minority interest) on the company’s balance sheet. The Fund then makes buy/sell decisions by comparing a company’s market value with its intrinsic value estimates. The Fund seeks to invest in internally financed companies generating cash in excess of their business needs, with predictable revenue streams, and in industries with high barriers to entry. In determining the presence of these factors, the Fund’s investment adviser reviews periodic reports filed with the Securities and Exchange Commission as well as industry publications.

The Fund may sell its portfolio securities for a variety of reasons, such as to secure gains, limit losses, or redeploy assets into more promising opportunities.

In order to respond to adverse market, economic, political or other conditions, the Fund may assume a temporary defensive position that is inconsistent with its investment objective and principal investment strategies and invest, without limitation, in cash or prime quality cash equivalents.

Principal Risks: There is a risk that you could lose all or a portion of your money on your investment in the Fund. This risk may increase during times of significant market volatility. The following risks could affect the value of your investment:

- **Equity Securities Risks:** Equity securities may experience sudden, unpredictable drops in value or long periods of decline in value. This change may occur because of factors that affect securities markets generally or factors affecting specific industries, sectors or companies in which the Fund invests.
- **Market Risk:** Securities selected for the Fund’s portfolio may decline in value more than the overall stock market.
- **Small and Medium Capitalization Company Risk:** The Fund invests in small and medium capitalization companies that tend to be more volatile and less liquid than large capitalization companies, which can negatively affect the Fund’s ability to purchase or sell these securities. Small and medium capitalization companies can be subject to more abrupt or erratic share price changes than larger, more established companies.
- **Value Investing Risk:** The risk associated with the Fund’s investment in companies it considers undervalued relative to their peers or the general stock market where these securities may decline or may not reach what the investment adviser believes are their full value.
- **Foreign Securities Risk:** Stocks of non-U.S. companies (whether directly or in ADRs) as an asset class may underperform stocks of U.S. companies, and such stocks may be less liquid and more volatile than stocks of U.S. companies. The costs associated with securities transactions are often higher in foreign countries than the U.S. The U.S. dollar value of foreign securities traded in foreign currencies (and any dividends and interest earned) held by the Fund may be affected unfavorably by changes in foreign currency exchange rates. Additionally, investments in foreign securities, whether or not publicly traded in the U.S., may involve risks which are in addition to those inherent in domestic investments, such as less demanding regulatory requirements, less demanding financial reporting requirements, and less stable economies.
- **Non-Diversification Risk:** Because the Fund is non-diversified (meaning that compared to diversified mutual funds, the Fund may invest a greater percentage of its assets in a particular issuer), the Fund’s shares may be more susceptible to adverse changes in the value of a particular security than would be the shares of a diversified mutual fund. Thus, the Fund is more sensitive to economic, business and political changes which may result in greater price fluctuations of the Fund’s shares.
- **ADR and GDR Risk:** ADRs and GDRs may be subject to some of the same risks as direct investment in foreign companies, which includes international trade, currency, political, regulatory and diplomatic risks. Because unsponsored ADR arrangements are organized independently and without the cooperation of the issuer of the underlying securities, available information concerning

the foreign issuer may not be as current as for sponsored ADRs and voting rights with respect to the deposited securities are not passed through. GDRs can involve currency risk since, unlike ADRs, they may not be U.S. dollar-denominated.

- **Currency Risk:** If the Fund invests directly in foreign (non-U.S.) currencies or in securities that trade in, and receive revenues in, foreign (non-U.S.) currencies, or in derivatives that provide exposure to foreign (non-U.S.) currencies, it will be subject to the risk that those currencies will decline in value relative to the U.S. dollar, or, in the case of hedging positions, that the U.S. dollar will decline in value relative to the currency being hedged. As a result, the Fund’s investments in foreign currency-denominated securities may reduce the Fund’s returns. Although hedging may be used to protect the Fund from adverse currency movements, the use of such hedges may reduce or eliminate the potentially positive effect of currency revaluations on the Fund’s total return, and there is no guarantee that the Fund’s hedging strategy will be successful.
- **Liquidity Risk:** The risk, due to certain investments trading in lower volumes or to market and economic conditions, that the Fund may be unable to find a buyer for its investments when it seeks to sell them or to receive the price it expects based on the Fund’s valuation of the investments. Events that may lead to increased redemptions, such as market disruptions, may also negatively impact the liquidity of the Fund’s investments when it needs to dispose of them. If the Fund is forced to sell its investments at an unfavorable time and/or under adverse conditions in order to meet redemption requests, such sales could negatively affect the Fund. Liquidity issues may also make it difficult to value the Fund’s investments.
- **New Fund Risk:** There can be no assurance that a newly organized Fund will grow to or maintain an economically viable size, in which case the Board may determine to liquidate the Fund. Liquidation can be initiated without shareholder approval by the Board if it determines it is in the best interest of shareholders. As a result, the timing of any liquidation may not be favorable to certain individual shareholders.
- **Exchange-Traded Fund Risk:** The risk of owning an ETF generally reflect the risks of owning the underlying securities they are designed to track, although lack of liquidity in an ETF could result in it being more volatile than the underlying portfolio of securities. Disruptions in the markets for the securities underlying ETFs purchased or sold by the Fund could result in losses on the Fund’s investment in ETFs. ETFs also have management fees that increase their costs versus the costs of owning the underlying securities directly.

Performance: The following bar chart and table provide some indication of the risks of investing in the Fund. The bar chart shows changes in the Fund’s performance from year to year for Investor Class shares (the only Class currently available for sale). The table shows how the Fund’s average annual returns over 1 year and since inception compare with those of a broad measure of market performance, as well as additional indices that reflect the market sectors in which the Fund invests. No performance information is available for the Institutional Class shares since that class had not commenced operations as of the date of this Prospectus. The performance for the Institutional Class shares would differ only to the extent that the Institutional Class shares have different expenses than the Investor Class shares. The Fund’s past performance (before and after taxes) is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available on the Fund’s website at www.intrepidcapitalfunds.com.

Intrepid Select Fund – Investor Class
Calendar Year Total Returns as of 12/31

During the period shown on the bar chart, the Fund’s best and worst quarters are shown below:

| | | |
|---------------|-------------------|--------|
| Best Quarter | June 30, 2016 | 9.76% |
| Worst Quarter | December 31, 2016 | -0.67% |

AVERAGE ANNUAL TOTAL RETURNS
(For the period ended December 31, 2017)

| | <u>1 Year</u> | <u>Since Inception (July 31, 2015)</u> |
|---|---------------|--|
| Investor Class | | |
| Return Before Taxes | 15.11% | 11.79% |
| Return After Taxes on Distributions | 14.09% | 10.09% |
| Return After Taxes on Distributions and Sale of Fund Shares | 8.80% | 8.46% |
| Morningstar U.S. Small Cap Total Return Index | 15.03% | 10.85% |
| S&P 400 [®] Midcap Index | | |
| (reflects no deduction for fees, expenses or taxes) | 16.24% | 12.02% |
| Russell 2000 [®] Total Return Index | | |
| (reflects no deduction for fees, expenses or taxes) | 14.65% | 10.88% |

Investor Class shares commenced operations on July 31, 2015. After-tax returns are calculated using the historical highest individual federal stated income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your situation and may differ from those shown. In certain cases, the figure representing “Return After Taxes on Distributions and Sale of Fund Shares” may be higher than the other return figures for the same period. A higher after-tax return results when a capital loss occurs upon redemption and provides an assumed tax deduction that benefits the investor. Furthermore, the after-tax returns shown are not relevant to those who hold their shares through tax-deferred arrangements such as 401(k) plans or Individual Retirement Accounts.

The Fund uses the S&P 400[®] Midcap Index and the Russell 2000[®] Total Return Index as additional indices because they compare the Fund’s performance with the returns of indices holding investments similar to those of the Fund. During the period ended December 31, 2017, the Morningstar U.S. Small Cap Total Return Index replaced the Russell 2000[®] Total Return Index as the primary benchmark index for the Fund based on the Adviser’s determination that the Morningstar U.S. Small Cap Total Return Index provides a more appropriate comparison to a broad based market index.

Management

Investment Adviser: Intrepid Capital Management, Inc. is the investment adviser for the Fund.

Portfolio Manager: Jayme Wiggins, CFA[®] has served as the portfolio manager of the Fund since 2015, and is the Chief Investment Officer of the Adviser.

Purchasing Shares: Investors may purchase, exchange or redeem Fund shares by mail at Intrepid Capital Management Funds Trust, c/o U.S. Bancorp Fund Services, LLC, 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53201-5207, or by telephone at 1-866-996-FUND. Redemptions by telephone are only permitted upon previously receiving appropriate authorization. Subsequent purchases and redemptions may be made by visiting the Funds’ website at www.intrepidcapitalfunds.com. Transactions will only occur on days the New York Stock Exchange is open. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly for information relative to the purchase or sale of Fund shares. The minimum initial amount of investment in a Fund is \$2,500 for Investor Class shares and \$250,000 for Institutional Class shares (except as noted in the next sentence). The minimum initial amount of investment in the Institutional Class shares of the Intrepid Income Fund is \$2,500. Subsequent investments in the Investor Class or Institutional Class shares of a Fund may be made with a minimum investment of \$100. Institutional Class shares of the Intrepid Disciplined Value Fund, the Intrepid International Fund and the Intrepid Select Fund are not currently available for sale. Investor Class shares of the Intrepid Income Fund are not currently available for sale.

Tax Information: The Funds’ distributions generally will be taxable to you, whether they are paid in cash or reinvested in Fund shares, unless you invest through a tax-deferred arrangement, such as a 401(k) plan or IRA, in which case such distributions may be taxable at a later date.

Payments to Broker-Dealers and Other Financial Intermediaries: If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Funds and their related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend a Fund over another investment. Ask your advisor or visit your financial intermediary’s website for more information.
